## **SINGLE FEASIBLE SOURCE PURCHASE POSTING NOTICE**

**The Missouri Department of Transportation has determined that only one source can provide the products or services described below**

**Title:** 710-11364 -TB (Girder Repairs SFS Posting)

**Description:** Heat straightening repairs are needed on Bridge A1816, New Madrid Co., Rte. M over I-55, on two girders that have sustained collision damage due to an over height load. This type of repair will prevent replacing the girders and cutting holes in the deck. This repair work must be performed while maintaining one lane of traffic on I-55 as there are no ramps or convenient detour for motorists. It is estimated these repairs and the associated work will cost in the range of \$70,700.00. This type of heat straightening is very complicated and is specialty work requiring a qualified vendor with extensive knowledge and experience in this field. The company listed below has a proven track record of quality performance on similar projects for the MoDOT Bridge Division in the past and is a leader in this type of work, which is critical consideration since the longevity of the bridge and safety of the traveling public depends on the quality of the repairs.

**Contract Period:** It is estimated work on this project will be completed in April 2011.

**Renewal Options:** This is a one time project with no plans to do any additional work.

**Agency:** Missouri Department of Transportation

**Supplier:** International Straightening, Inc. – Bismark, North Dakota

**Buyer:** Tammy Baker, Procurement Agent

**Phone Number:** 573-472-5369

**E-Mail:** [tammy.baker@modot.mo.gov](mailto:tammy.baker@modot.mo.gov)

**Posting Date:** 03/25/11

**Response Date:** 04/8/2011 @ 1:00 P.M.
